BORN DEMON

SOME SAY MAN IS SHAPED IN THE IMAGE OF GOD. BUT WE ARE RATHER BORN DEMON. TAKE ONE LOOK AT THE WORLD, AND YOU KNOW THAT COULDN'T BE MORE TRUE. WE CORRUPT OURSELVES AND EVERYTHING AROUND US. IT MUST TRULY BE THE WORK OF DEMONS.

Born Demon is an album about the demons in us. The dark forces inside, that make us do the evil things we do. But where do our demons come from? Do we have the Devil's blood running through our veins?

Every great band has a moment when everything falls elegantly into place. Norway's premier exponents of thunderous and doomy metal, Sahg have finally reached theirs. 16 years on from the release of the band's debut album, *Sahg I*, they have returned in 2022 with their sixth and finest studio record, *Born Demon*. A bombastic tour-de-force of high-octane, post-Sabbath riffing and

meticulously crafted and macabre songwriting, *Born Demon* represents a total renewal for this most elusive of overdriven crews.

Sahg plays Trve Norwegian Heavy Metal. We are the bastard sons of Black Sabbath, Motörhead, Pentagram and Judas Priest. Classic heavy metal for the new age, with a desire for the occult, aversion for religion, and a gloomy gaze into the inevitable apocalypse, all served with a bite of ice cold Norwegian blackness. With the ruthless power of the Toxic Trio, Sahg intends to bring Vintage Doom and Classic Heavy Metal back to the masses.

The new album - BORN DEMON - is out now!
